Dear Ken and William:

I appreciate the opportunity to provide key implementation updates on H589 - Competitive Energy Solutions for North Carolina. Please find attached the press release and fact sheet which was distributed this morning regarding the new proposed rooftop solar program. We will officially file the program with the Utilities Commission later today.

We are excited about this program for customers. This proposed rebate program filing resulted from successful collaboration between the rooftop developers, NCSEA and Duke Energy.

Please let me know of any questions.

Thank you.

Kathy
